

ABSTRACT OF DISCLOSURE

A method of playing a casino table poker-type game comprises a player placing an Ante wager on the poker-type game. The dealer provides at least one hand to the player placing the wager on the poker-type game and at least two hands to the dealer. The player elects to a) fold, b) place a wager to compete against less than all dealer hands, or c) placing a wager to compete against all dealer hands. After the election has been made by the player, the dealer discloses all of the dealer's at least two hands. Wagers made in accordance with b) and c) are resolved.
